

2027 Retail Value Steer Challenge

The Nebraska Cattlemen Foundation's (NCF) Retail Value Steer Challenge (RVSC) is the Foundation's premier fundraising event. By participating in the RVSC, you join fellow Nebraska cattle producers in supporting programs that strengthen the future of Nebraska's beef industry. Proceeds from the RVSC help fund:

- Youth and adult leadership development programs
- NCF educational initiatives and scholarships
- Research projects and industry infrastructure improvements
- Nebraska cattle industry history preservation efforts
- Livestock judging teams at:
 - Northeast Community College, Norfolk
 - Nebraska College of Technical Agriculture, Curtis
 - University of Nebraska-Lincoln

Your participation directly supports these important programs while also providing valuable benefits to you. Participants receive complete carcass data on their steer(s), have the opportunity to compete for prize money, and play a vital role in supporting Nebraska's leading cattle industry organization and its commitment to education, leadership, research, and industry advancement.

Invest in a steer. Invest in the future of Nebraska's beef industry.
